Molecular Cell Research
including Signal Transduction
Vol. 1133, 1992

Cumulative Contents

Regular Section

Regular Papers

Differentiation of a mouse neuroblastoma variant cell line whose ornithine decarboxylase gene has been amplified
Z.-P. Chen and K.Y. Chen (U.S.A.) 1

Secretion of chondroitin 6-sulfotransferase and chondroitin 4-sulfotransferase from cultured chick embryo chondrocytes
O. Habuchi, M. Tsuzuki, I. Takeuchi, M. Hara, Y. Matsui and S. Ashikari (Japan) 9

Regulation of intracellular pH in rabbit cortical connecting tubule and cortical collecting duct
G. Dagher and C. Sauterey (France) 17

The secretion of the tissue inhibitor of metalloproteinases (TIMP) by human synovial fibroblasts is modulated by all-*trans*-retinoic acid
J.K. Wright, I.M. Clark, T.E. Cawston and B.L. Hazleman (U.K.) 25

Prevention of Ca^{2+}-induced or thromboxane B_2-induced hepatocyte plasma membrane bleb formation by thromboxane receptor antagonists
A.A. Horton and J.M. Wood (U.K.) 31

Docosahexaenoic acid inhibits PAF and LTD_4 stimulated $[Ca^{2+}]_i$-increase in differentiated monocytic U937 cells
C. Weber, M. Aepfelbacher, I. Lux, B. Zimmer and P.C. Weber (Germany) 38

Comparison of the role of protein kinase C in platelet functional responses induced by three different mechanisms, PAF, ionomycin and arachidonic acid
C.T. Murphy, M. Elmore, S. Kellie and J. Westwick (U.K.) 46

Subsection: Signal Transduction

Minireview

Molecular mechanisms for the control of enzymic activity by protein phosphorylation
D. Barford (U.K) 55

Regular Papers

Characterization of glucocorticoid inhibition of antigen-induced inositolphosphate formation by rat basophilic leukemia cells: possible involvement of phosphatases
E. Her, N. Reiss, P. Braquet and U. Zor (Israel, France) 63

Selective stimulation of in situ intermediary metabolism by free calcium in permeabilized rat adipocytes
G.J. Mick, J. Lee and K.L. McCormick (U.S.A.) 73

Purification of guanylyl cyclase from rod outer segments
Y. Horio and F. Murad (U.S.A.) 81

The administration of triiodothyronine to rats results in a lowering of the mitochondrial membrane potential in isolated hepatocytes
R.B. Gregory and M.N. Berry (Australia) 89

Possible involvement of protein phosphorylation in the regulation of the sulphonylurea receptor of a pancreatic β-cell line, HIT T15
I. Niki and S.J.H. Ashcroft (U.K.) 95

Calcium mobilization and right-angle light scatter responses to 12-oxo-derivatives of arachidonic acid in neutrophils: evidence for the involvement of the leukotriene B_4 receptor
P.H. Naccache, Y. Leblanc, J. Rokach, P. Patrignani, B. Fruteau de Laclos and P. Borgeat (Canada) 102

Rapid Report

The *mas* oncogene enhances angiotensin-induced $[Ca^{2+}]_i$ responses in cells with pre-existing angiotensin II receptors
C. Ambroz, A.J.L. Clark and K.J. Catt 107

Corrigendum 113

Regular Section

Regular Papers

Determination of free creatine and phosphocreatine concentrations in the isolated perfused rat heart by ^{1}H- and ^{31}P-NMR
J.F. Unitt, J. Schrader, F. Brunotte, G.K. Radda and A.-M.L. Seymour (U.K., Germany) 115

Sex-specific differences in rabbit fetal lung maturation in response to epidermal growth factor
J.M. Klein and H.C. Nielsen (U.S.A.) 121

Regulation of diacylglycerol levels in carbachol-stimulated pancreatic acinar cells: relationship to the breakdown of phosphatidylcholine and metabolism to phosphatidic acid
R.P. Rubin, T.R. Hundley and M.A. Adolf (U.S.A.) 127

Vascular oxidative metabolism under different metabolic conditions
C.D. Hardin, R.W. Wiseman and M.J. Kushmerick (U.S.A.) 133

Enhancement of platelet 12-HETE production in the presence of polymorphonuclear leukocytes during calcium ionophore stimulation
R.K. McCulloch, K.D. Croft and R. Vandongen (Australia) 142

Uptake and intracellular handling of iron from transferrin and iron chelates by mitogen stimulated mouse lymphocytes
A. Djeha and J.H. Brock (U.K.) 147

Coculture of newborn rat skin epidermal cells with Swiss 3T3 cells: effect of the phases of 3T3 cells on attachment, growth and keratin synthesis of epidermal cells
K. Ohkura and H. Terada (Japan) 153

Role of the lysine and arginine residues of vitellogenin in high affinity binding to vitellogenin receptors in locust oocyte membranes
A. Roehrkasten and H.-J. Ferenz (Germany) 160

Possible roles of arachidonic acid and its metabolites in induction of tissue plasminogen activator (t-PA) production in human fibroblast, IMR-90 cells by proteose peptone
A. Suzuki, S. Mitsuda, K. Higashio and T. Kumasaka (Japan) 167

Subsection: Signal Transduction

Regular Papers

Synergistic effects of 12-*O*-tetradecanoylphorbol-13-acetate and dexamethasone on de novo synthesis of histidine decarboxylase in mouse mastocytoma P-815 cells
H. Kawai, M. Ohgoh, S. Emoto, E. Ohmori, N. Imanishi, K. Yatsunami and A. Ichikawa (Japan) 172

Synergistic effects of cyclic AMP and Ca^{2+} ionophore A23187 on de novo synthesis of histidine decarboxylase in mastocytoma P-815 cells
T. Miyazaki, M. Ohgoh, E. Ohmori, J. Yamamoto, S. Emoto, K. Yatsunami and A. Ichikawa (Japan) 179

Evidence for insulin dependent hepatic microsomal γ-linolenic acid chain elongation in spontaneously diabetic Wistar BB rats
V. Mimouni, M. Narce and J.-P. Poisson (France) 187

Characterization of EGTA-washed synaptosomal membrane with emphasis on its calmodulin-binding proteins. Demonstration of possible reconstitution with added calcium/calmodulin
N. Natsukari, T. Uezato, H. Ohta and M. Fujita (Japan) 193

Hormonal regulation of glycosylation process in rat small intestine: responsiveness of fucosyltransferase activity to hydrocortisone during the suckling period, unresponsiveness after weaning
M.-C. Biol, D. Lenoir, I. Hugueny and P. Louisot (France) 206

Differential effect of a new thyromimetic on triiodothyronine transport into myoblasts and hepatoma and neuroblastoma cells
M. Lakshmanan, E. Goncalves, A. Pontecorvi and J. Robbins (U.S.A.) 213

The effect of a cAMP analogue on Ca^{2+} ionophore-, antigen- and agonist-induced inositol phosphate release in rat basophilic leukaemia (RBL-1) cells
S.H.I. Galadari, H.R. Morris and V. Di Marzo (U.K., Italy) 218

Lipoxin generation by human megakaryocyte-induced 12-lipoxygenase
K.-A. Sheppard, S.M. Greenberg, C.D. Funk, M. Romano and C.N. Serhan (U.S.A.) 223

Utility of immobilon-bound phosphoproteins as substrates for protein phosphatases from neutrophils
J. Ding and J.A. Badwey (U.S.A.) 235

Regular Section

Regular Papers

Effect of iron and retinoic acid on the control of transferrin receptor and ferritin in the human promonocytic cell line U937
M. Iturralde, J.K. Vass, R. Oria and J.H. Brock (U.K.) 241

Urinary excretion of thromboxane and prostacyclin metabolites during chronic low-dose aspirin: evidence for an extrarenal origin of urinary thromboxane B_2 and 6-keto-prostaglandin F1α in healthy subjects
C. Chiabrando, L. Rivoltella, L. Martelli, S. Valzacchi and R. Fanelli (Italy) 247

Selective inhibition of the synthesis of phospho-*enol*pyruvate carboxykinase in freshly isolated proximal tubule cells
P.J. Evans (U.K.) 255

Effects of anti-oxidants on ornithine decarboxylase in mitogenically-activated T lymphocytes
N.H. Hunt and J.-C. Fragonas (Australia) 261

Efflux and accumulation of amino nitrogen in relation to the volume of rat renal inner medullary cells exposed to media of variable osmolality
R.O. Law (U.K.) 268

Analysis and discrimination of necrosis and apoptosis (programmed cell death) by multiparameter flow cytometry
C. Dive, C.D. Gregory, D.J. Phipps, D.L. Evans, A.E. Milner and A.H. Wyllie (U.K.) 275

Subsection: Signal Transduction

Regular Papers

Diphosphorylation of platelet myosin by myosin light chain kinase
K. Itoh, T. Hara and N. Shibata (Japan) 286

Red cell filterability determined using the cell transit time analyzer (CTTA): effects of ATP depletion and changes in calcium concentration
M. Rendell, T. Luu, E. Quinlan, S. Knox, M. Fox, S. Kelly and K. Kahler (U.S.A.) 293

Rat brain glycolysis regulation by estradiol-17β
A. Kostanyan and K. Nazaryan (U.S.S.R.) 301

Potentiation of epidermal growth factor receptor protein-tyrosine kinase activity by sulfate
L. Hubler, U. Kher and P.J. Bertics (U.S.A.) 307

Ethanol is a potent stimulator of phosphatidylcholine breakdown in cultured rat hepatocytes
R.A. Pittner and J.N. Fain (USA) 316

Stimulation of glycolysis by corticotropin and phorbol ester in cultured neurons
P. Anglard, E. Magal and J.-C. Louis (France) 321

Role of insulin and IGF1 receptors in proliferation of cultured renal proximal tubule cells
B.L. Blazer-Yost, M. Watanabe, T.P. Haverty and F.N. Ziyadeh (U.S.A.) 329

Titles of related papers in other sections 337
